**MAKING MUSIC ALL DAY (KEY of A)**

Life is sweet (*slow sway back and forth*)

When you got a beat

Making music (*play your instrument*)

All day.

Life is fine. (*slow sway back and forth*)

With you by my side

And a song to sing (*play your instrument*)

All day.

Outside where the sun shines bright. (*one arm raises from the center of the body and opens up to one side*)

Outside where the breeze feels...so right (*the other arm raises from the center of the body and opens up to the other side*)

Life is sweet (*slow sway back and forth*)

When you got a beat

Making music (*play your instrument*)

All day.

Tambourine: Hey guys, we sounded better than the musicians that play us.

Keyboard: Yes, we are able to stay in same key!

Saxophone: Maybe we should take ourselves on the road!

Accordion: Accordion to the crowd, we should keep the vocalist!

Harmonica: I agree, she is the best out of all of the musicians here.

Electric guitar: I love when she dances to my rocking solos!

Trombone: Whoa— guys, the musicians are back and the crowd is gathering around to listen.

Flute: Let's hope the next set of songs is better than the opening performance!
